

Projects developed by Brecht-IT

Scripts

Some simple scripts that should make our life more easy!

ipfire-extensions/openvpn-notifier

A simple script for IPFire to notify hostmasters when a OpenVPN cert will expire soon: [github.com - Zyzonix - attic/ipfire-extensions](#)

proxmox-tweaks

A simple script that run daily and checks, if Proxmox got an update, that "reinstalled" the No subscription-badge. When a change was found, the script will remove the badge. Additionally the installation process is quite easy, therefore read our guide at: [fixes.brecht-schule.hamburg - Linux/Debian/Proxmox - Remove Proxmox subscription badge automatically](#)

Source code: [github.com - Zyzonix - attic/proxmox-tweaks](#)

Complete services

There isn't always an easy solution - for such reasons some longer scripts are required...

earlybird

A simple script to wakeup servers after a powerloss: [github.com - Zyzonix - earlybird](#)
