

Remove Proxmox subscription badge

To remove the subscription badge that is displayed after logging in into Proxmox VE or Proxmox BS, you can either manually edit the `proxmoxlib.js` under `/usr/share/javascript/proxmox-widget-toolkit` or install our script.

Automatic way

The script(s) can be found under github.com/Zyzonix/attic/tree/main/proxmox-tweaks. When using the install script, a crontab will be installed that runs daily. If the script detects a change of `proxmoxlib.js` it will edit the changed line that creates the subscription badge and restart the webproxy.

Downloading the installer:

```
wget https://raw.githubusercontent.com/Zyzonix/attic/main/proxmox-tweaks/install-proxmox-tweaks.sh
```

Run the installation script:

```
bash install-proxmox-tweaks.sh
```

From now the script will check every day if there was a change of `proxmoxlib.js`. **Remove the installation script:** `rm install-proxmox-tweaks.sh`

Manual way

Create a backup of `proxmoxlib.js` under `/usr/share/javascript/proxmox-widget-toolkit`.

```
cp /usr/share/javascript/proxmox-widget-toolkit/proxmoxlib.js /usr/share/javascript/proxmox-widget-toolkit/proxmoxlib.js.bak
```

Open the file and search for the line containing this: `if (res === null || res === undefined || !res || res.data.status.toLowerCase() !== ,active') {`. Change the if-statement to false: `if (false) {`.

Finally restart the proxy: **ProxmoxVE:**

```
systemctl restart pveproxy.service
```

ProxmoxBS:

```
systemctl restart proxmox-backup-proxy.service
```
