

Zyzonix

Hello, my name is Zyzonix 🤗. I'm a former student of Brecht Schule and currently working in the IT department of it.

As convinced Linux enthusiast I see it as my duty to maintain this wiki to give anything back to the community.

My [GitHub](https://github.com/zyzonix) can be found here: github.com/zyzonix

I am also hosting a Debian repository under repo.zyzonix.net for several fun projects (Architectures: amd64, arm64 and armhf). Currently I am trying to bring proxmox back to the ARM64 architecture after the Pimox project on GitHub is some releases behind. Check out my repo to stay up to date.

Additionally I am running four public blockchain nodes of [Chia](https://github.com/zyzonix) and forks of it, they can either be access through `node.zyzonix.net` or `node.xerberos.de`:

Blockchain	Port
Chia Network	8444
HDDCoin Network	28444
STAI Network	1999
BPX V3 Network	30303 / 6201
