

# Zyzone

Hello, my name is Zyzone 😊. I'm a former student of Brecht Schule and currently working in the IT department of it.

As convinced Linux enthusiast I see it as my duty to maintain this wiki to give anything back to the community.

My [GitHub](https://github.com/zyzone) can be found here: [github.com/zyzone](https://github.com/zyzone)

I am also hosting a Debian repository under [repo.zyzone.net](https://repo.zyzone.net) for several fun projects (Architectures: amd64, arm64 and armhf). Currently I am trying to bring proxmox back to the ARM64 architecture after the Pimox project on GitHub is some releases behind. Check out my repo to stay up to date.

Additionally I am running four public blockchain nodes of [Chia](https://github.com/zyzone) and forks of it, they can either be access through `node.zyzone.net` or `node.xerberos.de`:

Blockchain	Port
Chia Network	8444
HDDCoin Network	28444
STAI Network	1999
BPX V3 Network	30303 / 6201
