

# Zyzonix

Hello, my name is Zyzonix . I'm a former student of Brecht Schule and currently working in the IT department of it.

As convinced Linux enthusiast I see it as my duty to maintain this wiki to give anything back to the community.

My [GitHub](https://github.com/zyzonix) can be found here: [github.com/zyzonix](https://github.com/zyzonix). Often I write some cool short scripts which aren't worth for a repository, therefore I created my 'attic', it can be found [here](#).

## repo.zyzonix.net

I am also hosting a Debian repository under [repo.zyzonix.net](https://repo.zyzonix.net) for several fun projects (Architectures: amd64, arm64 and armhf). Currently I am trying to bring proxmox back to the ARM64 architecture after the Pimox project on [GitHub](#) is some releases behind. Check out my repo to stay up to date.

You can add my repository with this commands (requires curl installed): Add repository:

```
curl -sS https://repo.zyzonix.net/ReleaseKey.gpg | gpg --dearmor | sudo tee /usr/share/keyrings/repo.zyzonix.net.gpg > /dev/null
```

And:

```
echo "deb [signed-by=/usr/share/keyrings/repo.zyzonix.net.gpg] https://repo.zyzonix.net/ stable main" | sudo tee /etc/apt/sources.list.d/repo.zyzonix.net.list
```

Additionally I am running four public blockchain nodes of [Chia](#) and forks of it, they can either be access through `node.zyzonix.net` or `node.xerberos.de`:

| Blockchain      | Port (TCP)   |
|-----------------|--------------|
| Chia Network    | 8444         |
| HDDCoin Network | 28444        |
| STAI Network    | 1999         |
| BPX V3 Network  | 30303 / 6201 |
